DODGE REPORTS (Online)

EXAMINATION

- Offerors shall carefully examine the Construction Documents and the construction site to familiarize themselves with existing local conditions under which the Work is to be performed.
- Extra payments will not be authorized for work that could have been foreseen by careful examination of the site. Submission of a proposal shall constitute acceptance, by the offeror, of existing site conditions as a part of the requirements for this work.
- Offerors shall carefully examine the Construction Documents to verify that they agree with the Table of Contents in the Project Manual, the Index of Drawings Sheet on the Drawings, and the Cover Page of all Addenda. Offerors shall be responsible for obtaining any pages or sheets which have been inadvertently left out during the printing process.

All entities providing proposals on any portion of the work contained in the Construction Documents shall ascertain the completeness of the set of documents.

The Construction Documents are printed by an independent vendor and, although the Architect endeavors to check the documents for completeness, the Architect has, in the past, discovered missing or misplaced sheets in the drawings and the Specifications.

Each entity receiving a set of Construction Documents shall check the

indexes against the sheets or pages contained in the sets.

Should pages or sheets be found to be misplaced or missing, immediately notify the Architect who will give direction as to placement or provide the sheets or pages that are missing.

Failure to notify the Architect means the offeror is providing a proposal based on a complete set of Construction Documents.

By submission of this bid, Contractor agrees to comply with the following provisions.

- Contracts for more than the simplified acquisition threshold currently set at \$150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulation Council (Councils) as authorized by 41 U.S.C.1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when ECISD expends federal funds, ECISD reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

- All contracts in excess of \$10,000 must address termination for cause and for convenience including the manner by which it will be effected and the basis for settlement.

Pursuant to Federal Rule (B) above, when ECISD expends federal funds, ECISD reserves the right to immediately terminate any agreement in excess of \$10,000 resulting from this procurement process in the event of a breach or default of the agreement by Vendor in the event Vendor fails to: (1) meet schedules, deadlines, and/or delivery dates within the time specified in the procurement solicitation, contract, and/or a purchase order; (2) make any payments owed; or (3) otherwise perform in accordance with the contract and/or the procurement solicitation. ECISD also reserves the right to terminate the contract immediately, with written notice to vendor, for convenience, if ECISD believes, in its sole discretion that it is in the best interest of ECISD to do so. Vendor will be compensated for work performed and accepted and goods accepted by ECISD as of the termination date if the contract is terminated for convenience of ECISD. Any award under this procurement process is not exclusive and ECISD reserves the right to purchase goods and services from other vendors when it is in ECISD's best interest.

- **Equal Employment Opportunity.** Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

Pursuant to Federal Rule (C) above, when ECISD expends federal funds on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.

In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The entity must report all suspected or reported violations to the Federal awarding agency. Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

1**Buy American Provision for Child Nutrition**

Edinburg CISD adheres to the Buy American Provision (7 CFR 210.21) when purchasing commercial food products to be served in the district's SNP meals. This provision will be included in all solicitations for food to be used in the school nutrition programs.

Per Section 104(d) of the William F. Goodling Child Nutrition Reauthorization Act of 1998 {Public Law 105-336} added a provision, Section 12(n) to the NSLA (42 USC 1760(n)), requiring School Food Authorities (SFA's) to purchase, to the maximum extent practicable, domestic commodity or product. Section 12(n) of the NSLA defines "domestic commodity or product" as an agricultural commodity that is produced in the United States and a food product that is processed in the United States using substantial agricultural commodities that are produced in the United States. Substantial" means that over 51 percent of the final processed product consists of agricultural commodities that were grown domestically. Products from Guan, American Samoa, Virgin Islands, Puerto Rico, and the Northern Mariana Islands are allowed under this provision as territories of the United States. The Buy American provision (7 CFR Part 210.21(d)) is one of the procurement standards SFA's must comply with when purchasing commercial food products served in the school meals programs.

Edinburg CISD will purchase domestic food products per the Buy American Provision unless:

1. The product needed is not produced or manufactured in the U.S. in sufficient and reasonable available quantities of a satisfactory quality; or
2. Competitive bids reveal the costs of a U.S. product are significantly higher than the non-domestic product

Edinburg CISD will maintain all documentation in regard to any food purchases that are deemed "non-domestic" to include cost comparisons if the product is available as a "domestic" product that is seen as unreasonable in cost; or if not available as a U.S. grown product the documentation will include the "country of origin."

contractually require each person with whom it contracts to perform as required by this section 6.9 with the certificates of coverage to be provided to the person for whom they are providing services.

- By signing the Construction Agreement or providing or causing to be provided a certificate of coverage, Contractor represents to the Owner that all employees of Contractor who will provide services on the project will be covered by workers' compensation coverage for the duration of the project, that the coverage will be based on proper reporting of classification codes and payroll amounts, and that all coverage agreements will be filed with the appropriate insurance carrier or, in the case of a self-insured, with the Commission's Division of Self-Insurance Regulation. Contractor must make application for an extension of time within seven (7) days of the events causing the delay. Failure to timely make request for extension is a waiver of the right to extension for that particular incident. A waiver of a prior right of an extension shall not waive the right to request an extension as a result of subsequent events. The request will be submitted to the Project Manager along with any documents supporting the request.
- In the event the project is not substantially completed by the contract deadline, or as it may be extended as provided above, no progress payments will be made on or beyond the date for substantial completion, until the project is substantially completed and accepted as that term is defined in these Contract Documents. Contractor shall coordinate size and location of all offices with the Owner and Project Manager prior to completion or placement on the premises as may be necessary.

Miscellaneous

- Nothing in these Special Conditions shall be construed to diminish the duties, responsibilities and obligations of Contractor as contained in the Construction Agreement between the Owner and Contractor.
- Owner's rules and regulations relating to drug policy, tobacco policy, sexual harassment policy, State of Texas and Texas Education Agency facilities laws, regulations and guidelines, city building codes, ADA guidelines and regulations, and without limitation by enumeration, any other applicable rule or regulation, shall apply to the Project Manager, Contractor and subcontractors on any School District project while on the construction site. The Project Manager and Contractor will be expected to be knowledgeable of all the laws, policies, and regulations listed above. Owner's policies are available from the Assistant to the Superintendent, upon request.
- Contractor and subcontractors shall ensure that on-site fraternization will not occur between personnel under Contractor's or subcontractor's direct or indirect supervision, and students, school employees and the general public.
- All Title VI, Title IX and other applicable Federal and State Regulations shall be complied with and enforced.
- All dates contained or implied in the Contract Documents commence with the date stated in the Construction Agreement, unless otherwise expressly stated.
- Expenses incurred by Contractor, and of its employees, and any subcontractors and their employees in connection with travel shall be borne exclusively by Contractor or the subcontractor, in accordance with their respective policy. Such expense includes, without limitation by enumeration, telephone, meals, lodging, transportation and subsistence. In no event shall Contractor or any subcontractor be entitled to any additional compensation from Owner as a result of incurring such expenses.
- Construction meetings between the Owner, Project Manager and Contractor will be held a minimum of one time per week, or more frequently as deemed necessary by the Owner or Project Manager, through Final Acceptance and Approval of the project by the Owner.
- Acceptance of substantial completion and Final Acceptance and Approval by the Owner is contractual, with the Owner making the final decision.
- The date of beginning of Work and the time for completion of Work as specified in the Contract Documents are essential conditions of this Contract. The Work shall be commenced on a date to be specified in the "Notice to Proceed." Contractor agrees that the Work shall be prosecuted regularly and diligently, without interruption, at such a rate of progress as will ensure full completion thereof within the time specified. It is expressly agreed by Contractor that the time for the completion of the Work described herein is a reasonable

time for completion.

If Contractor shall neglect, fail or refuse to substantially complete the Work within the time indicated by Contractor in his proposal, or any proper extension thereof granted by the Owner, then Contractor does hereby agree, as a part consideration for the awarding of this Contract, to pay to Owner the amount specified in the Contract, not as a penalty but as liquidated damages for such breach of Contract, as provided in these contract documents, for each and every calendar day that Contractor shall be in default after the time stipulated in the Contract for substantial completion of the Work.

In the event Owner is entitled to liquidated damages under any provision of the Contract Documents, Owner may deduct the amounts of liquidated damages from the next payment due Contractor following the event giving rise to an assessment of liquidated damages, or Owner, at its option, may assess the liquidated damages and deduct them from the final payment due Contractor. In the event the liquidated damages due Contractor should exceed the amount of the final payment due Contractor, Contractor shall pay Owner the difference within fifteen (15) days of receipt of written notice from Owner of the balance due. Owner may offset any liquidated damages due from Contractor at any time against any sums due Contractor by Owner.

If Contractor shall neglect, fail or refuse to substantially complete the Work within the time indicated by Contractor in his proposal, or any proper extension thereof granted by the Owner, then Contractor does hereby agree, as a part consideration for the awarding of this Contract, to pay to Owner the amount specified in the Contract, not as a penalty but as liquidated damages for such breach of Contract, as provided in these contract documents, for each and every calendar day that Contractor shall be in default after the time stipulated in the Contract for substantial completion of the Work.

The amount of liquidated damages set forth in the Construction Agreement is agreed upon by and between Contractor and the Owner because of the impracticality and extreme difficulty of ascertaining the actual damages the Owner would sustain in the events described in those articles. Contractor warrants and represents the stipulated amounts set forth in the Construction Agreement are not a penalty but rather constitute a fair estimation by the parties of the actual damages that Owner would incur under the circumstances; and Contractor further warrants and represents it will not contest this fair estimation in the event any provision of the Contract Documents requires payment of this stipulated amount.

Contractor shall not be charged with liquidated damages or any excess costs when the delay in completion of the Work is due:

- To any performance, priority or allocated order duly issued by the State or Federal Government.
- To unforeseeable cause beyond the control and without the fault or negligence of Contractor, including but not limited to, acts of God, or of the public enemy, acts of another contractor in performance of a contract with the Owner, fires, floods, epidemics, quarantine restrictions, strikes, or freight embargoes.
- The failure to enforce the breach of any term or condition contained in these Contract Documents shall never be construed as a waiver to enforce the same or any subsequent breach within the time prescribed by law.
- Contractor shall save and keep Owner and Owner's property free from all mechanic's and material men's liens and all other liens and claims, legal or equitable arising out of Contractor's work hereunder. In the event any such lien or claim is filed by anyone claiming by, through, or under Contractor, Contractor shall remove and discharge same within ten (10) days of the filing thereof.
- In the event Owner or Project Manager perform tests to evidence compliance with the plans and specifications, and if such tests reveal a failure to meet the requirements of the plans and specifications, such tests shall be paid for by Contractor. Contractor shall then verify by independent tests that work has been done to correct all discrepancies.
- The Architect/Owner will provide sufficient competent personnel, together with its Consultants, working under the supervision of a qualified Architect/Engineer, for the inspection of the work while such work is in progress to ascertain that the completed work will comply in all respects with the standards and requirements set forth in the specifications. Contractor will be responsible for payment of City inspection personnel if major work related issues are schedule outside of the normal business hours, as is required by the City of Edinburg. Notwithstanding such inspection, the Contractor will be held responsible for the acceptability of the finished work.

- The Architect / Engineer and Owner and their representatives shall at all times have access to the work whenever it is in preparation or progress and the Contractor shall provide proper facilities for such access and for inspection.
- If the specifications, the Architect's/Engineer's instructions, laws, ordinances, or any public authority require any work to be specially tested or approved, the Contractor shall give the Consultant timely notice of its readiness for inspection. Inspections by the Consultant shall be made promptly and where practicable at the source of supply. If any work should be covered up without approval or consent of the Architect/ Engineer, it must be uncovered at the Contractor's expense, unless the Consultant has unreasonably delayed inspection.
- The Owner reserves the option of testing any and all materials used in this construction. All testing will be made by an independent laboratory designated and paid by the Owner, unless otherwise stated in the specifications of the items to be tested. Any costs associated with retesting of materials shall be the responsibility of the contractor as required by the District. Any construction materials not meeting specifications may be rejected at contractor's expense or may be accepted by the District provided an appropriate deduction is granted and agreed upon by the Design Consultant (s). District personnel must be notified 24 hours in advance of materials testing.
- Contractor will coordinate with Owner to move onto site. Contractor shall not commence work at site under this Contract until he obtains all required insurance and submits appropriate certifications. Contractor shall, prior to commencement of Work, submit evidence satisfactory to Owner that payment and performance bonds have been issued in the required amounts.
- Contractor shall inspect any surfaces for level tolerances and "bird baths," and rectify any such deficiencies.
- Submittal of required as-built drawings, warranties, manuals and documents will be submitted to Owner prior to final acceptance phase.
- All guarantees and warranties will be properly assigned to Owner and approved by Owner prior to Final Acceptance and Approval.
- All record documents will be properly marked.
- Any critical work left incomplete or unfinished shall, on the recommendations of the Project Manager and/or engineer, be completed within specifications by Owner or its independent contractor. The cost of such completion shall deducted from the contract amount by change order.
- When applicable, special emphasis will be made by Contractor to ensure effective and efficient drainage of all construction sites and parking areas during all phases of construction.
- With the exception of such provisions, obligations, duties and responsibilities that are clearly limited to Contractor in these Contract Documents, all the terms, covenants, conditions, rules and requirements imposed upon Contractor in these Contract Documents shall equally apply to and govern the conduct and performance of any of Contractor's subcontractors, sub-subcontractors and their employees.
- Contractor shall submit one hard copy of shop drawings together with a scanned PDF of same, product data bond to the Project Manager unless stated differently elsewhere in the contract documents. The Project Manager will not accept shop drawings or other submittals unless Contractor has first reviewed and corrected them and certifies that requirements of the contract documents have been met.
- If a dimensional discrepancy exists, Contractor shall take field measurements required for proper fabrication and installation of work. Upon commencement of any item of work, Contractor shall be responsible for dimensions related to such item of Work and shall make any corrections necessary to make work properly fit at no additional cost to Owner.
- Contractor shall carefully study and compare Contract Documents with existing conditions at Project site and shall at once report in writing to the Project Manager any error, inconsistency or omission he may discover or any materials, systems, procedures, or methods of construction, either shown on Contract Drawings or specified, which he feels are incorrect, inadequate, obsolete, or unsuitable for purpose intended, or which he would not be satisfied to warranty as specified. Contractor shall not proceed with any work in such areas until written instructions are received from Owner/Project Manager. Failure to report a conflict in Contract Documents shall be conclusive evidence that Contractor has elected to proceed in more expensive manner.

- Before ordering any material or doing any work, Contractor shall verify all dimensions and check all conditions in order to assure himself that they properly reflect those on Drawings. Any inconsistency shall be brought to the attention of the Owner/Project Manager. In the event that discrepancies occur between ordered material and actual conditions, of which the Owner/Project Manager was not notified beforehand, costs to correct such discrepancies shall be borne by Contractor.
- Failure to submit a written plan indicating action by Contractor to regain time schedule for completion of work within contract time shall be grounds to deny any related extension request.
- All insurance coverage required to be provided by Contractor in these Contract Documents shall be on an occurrence basis. Owner will not accept any claims made coverage. Each policy of insurance to be purchased and maintained by Contractor and each certificate of insurance for said insurance shall contain a complete waiver of subrogation against Owner, Project Manager and Project Manager's Engineers. Each certificate shall also list Owner, Project Manager and Project Manager's Engineers as a party insured. If Owner is damaged by failure of Contractor to maintain required insurance, then Contractor shall bear all reasonable costs properly attributed thereto.
- No sureties will be accepted by Owner who are now in default or delinquent on any bonds or who are interested in any litigation pending against Owner or Contractor during term of this Contract. A surety upon any bond furnished in connection with this Contract shall be by a company holding a certificate of authority as an acceptable surety on Federal Bonds and as acceptable reinsuring company listed in the Federal Register of the Department of Treasury's latest annual edition of surety companies. The surety company or companies furnishing surety bonds for this Contract must show a Department of Treasury underwriting limitation not less than total amount of the Contract. Should any surety be determined unsatisfactory at any time by Owner, notice will be given to Contractor, and Contractor shall immediately provide a new surety acceptable to Owner at no additional cost to Owner. This Contract shall not be valid nor will any payments be due or paid until approval of each bond by Owner.
- Owner shall have the right to operate equipment until defects are corrected and warranties met, and shall have the right to operate rejected equipment until it is replaced without charge for depreciation, use or wear.
- Contractor shall observe the following policies of employment:

Contractor and Contractor's Subcontractors shall not discriminate against any employee or applicant for employment because of race, religion, color, sex or national origin, age, or other impermissible discriminatory reason. Contractor shall ensure that applicants are employed and that employees are treated during employment without regard to their race, religion, color, sex, national origin, age, or other impermissible discriminatory reason. Such actions shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth policies of non-discrimination.

Contractor and Contractor's Subcontractors shall, in all solicitations or advertisements for employees placed by them or on their behalf, state that all qualified applicants will receive consideration for employment without regard to race, religion, color, sex, national origin, age, or other impermissible discriminatory reason.

- Time is of the essence of each and every portion of this Contract and of the Specifications wherein a definite and certain length of time is fixed for the performance of any act whatsoever, and where under the Contract an additional time is allowed for the completion of any work, the new time fixed by such an extension shall be of the essence of this Contract.
- The plans and specifications may make mention of items "By Owner", "To be Furnished By Owner", "To Be Furnished and Installed by Owner", etc. These items are not a part of the Contract, NIC.
- The plans and specifications are written to explain what to do, not how to do it. It is assumed and will be required that all workmanship be in a good and workmanlike manner, in accordance with industry standards and in compliance with current approved standards and codes for that particular phase of the work. No careless or slovenly work of any form will be accepted.

- All references to published standards, codes, and statutes shall be to the current edition as of the agreement date unless specific edition is referenced.
- No request for the substitution of products in place of those specified shall be considered after the Contract has been executed, except as specified under the conditions set forth in the General Requirements of the Project Manual. By making requests for substitutions, Contractor (1) represents that Contractor has personally investigated the proposed substitute product and determined that it is equal or superior in all respects to that specified; (2) represents that Contractor will provide same warranty for substitution that Contractor would for that specified; (3) certifies that cost data presented is complete and includes all related costs under this Contract except Project Manager's redesign costs, and waives all claims for additional costs related to substitution which subsequently become apparent; and (4) will coordinate installation of accepted substitute, making such changes as may be required for Work to be complete in all respects.
- The Project Manager may appoint an employee or other person to assist him during the construction. These representatives will be instructed to assist Contractor in interpreting the Contract Documents; however, such assistance shall not relieve Contractor from any responsibility as set forth by the Contract Documents. The fact that the Project Manager's Representative may have allowed work not in accordance with the Contract Documents shall not prevent the Project Manager from insisting that the faulty work be corrected to conform with the Contract Documents and Contractor shall correct same.
- The reference in the Contract Documents to "fully performed or accepted" or similar phrases refers to the final phase of the construction process and includes final acceptance and approval by Owner. This phase will include the installation, testing and satisfactory operation of all major systems designated by the Owner. All building permits, applicable releases, operating certificates, certificates of occupancy, warranties, mechanical/maintenance training, recommendations and manuals, manufacturer's directions and manuals, completed punch list items, property insurance transfer from Contractor to Owner, "as built" drawings, installation of any permanent locks, key transmittal, samples, final cleaning, materials/supply stock will also be completed to the Owner's satisfaction, if applicable, and in Owner's possession prior to this phase. In essence, the facility must be fully and finally completed for use and occupancy to the Owner's satisfaction and all improvements and equipment installed in a good and workmanlike manner and functioning as intended in accordance with the design and specifications.
- Contractor hereby assigns to Owner any and all claims for overcharges associated with the Contract which arise under the antitrust laws of the United States, 15 U.S.C.A. § 1, et seq. (1973).
- The extent to which Owner may extend indemnity and waivers of subrogation to other parties shall be governed and limited by State law where applicable.
- All work under this contract shall conform to the requirements of these specifications. All labor, materials, equipment, supervision and other services required for this construction will be furnished in accordance with plans and specifications as prepared by the Consultant (architect / engineer).
- All work to be performed in close association with project architect, engineer (Consultant) or designer. Before civil, site improvements proceed, verify locations with the Operation's staff and Consultants.
- Edinburg CISD along with their Consultant personnel have delineated work areas and access routes. Any damaged property not otherwise mentioned within plans or specifications to be installed, shall be the responsibility of the contractor (product and installation) as approved by District personnel.

If the Contractor does not pay the expense of such removal and storage within ten days' time thereafter, the Owner may, upon ten days' written notice, sell such materials at auction or at private sale and shall pay the Contractor any net proceeds thereof, after deducting all costs and expenses that should have been borne by

Project Description, Products and Installation

- It will be the contractor's responsibility to repair any underground utilities punctured during trenching operations in a timely manner. Be advised that electrical, gas, data, water and sewage lines serving the campuses are essential to everyday campus operations and damage to any of these utilities needs to be repaired immediately and without pause. Directional bores/trenching will not begin until adequate and reasonable measures have been made to determine existing underground utilities/easements. - All prospective contractors are encouraged to visit the site in order to properly gauge the proposed improvements. It is expected that the contractor will work closely with the Owner/Architect as the improvements are planned and construction activities progress.
- The improvements at these distinct campus sites will create complete, finished and operational improvements. These improvements shall include all components and accessories required to provide a complete, operational and cleanly finished installation. Work shall be substantially complete as described within the contract documents.
- This job will be as described in the attached design and specifications.
